Florida Fresh Citrus Shipments 2007-08 Annual Report

Purpose

This report provides a summary of fresh citrus shipment data for the 2007-08 season. It contains information on shipments of oranges, grapefruit, tangelos and tangerines for the domestic and export markets. The report is based on data collected by the Division of Fruit and Vegetable Inspection of the Florida Department of Agriculture and Consumer Services.

The information is tabulated in three ways:

- (1) annually with comparisons of shipments in previous seasons,
- (2) by time period during the shipping season, and
- (3) by major state markets for each variety.

Highlights

The 2007-08 Florida fresh citrus shipments were down 3.7% from the previous season despite a 25.5% increase in estimated overall Florida citrus production. Florida fresh citrus shipments totaled 35.5 million 4/5-bushel cartons in 2007-08, compared to 36.8 million cartons shipped in 2006-07. Orange and grapefruit shipments were down while tangelo and tangerine shipments showed modest increases.

Fresh grapefruit shipments were down 8.4% in the domestic market and 9.3% in the Canadian market. Both colored and white shipments decreased in the domestic and Canadian markets.

Offshore markets accounted for 63.0% of grapefruit shipments. Offshore colored shipments were up 1.1% while white shipments declined by 6.3%.

Fresh round-orange (including Temples) shipments represented 24.9% of the fresh volume. Orange shipments totaled 8.8 million 4/5-bushel cartons in 2007-08 which represented an 11% decrease from the previous season. Fresh tangelo shipments increased 3.8% over last season. Honey tangerine shipments were up 8.9% and other tangerine shipments (including Robinson, Sunburst, Fallglo, etc.) increased 9.6%.
