Florida Fresh Citrus Shipments 2004-05 Annual Report

Purpose

This report provides a summary of fresh citrus shipment data for the 2004-05 season. It contains information on shipments of oranges, grapefruit, Temples, tangelos and tangerines for the domestic and export markets. The report is based on data collected by the Division of Fruit and Vegetable Inspection of the Florida Department of Agriculture and Consumer Services.

The information is tabulated in three ways:

- (1) annually with comparisons of shipments in previous seasons,
- (2) by time period during the shipping season, and
- (3) by major state markets for each variety.

Highlights

The 2004-05 Florida fresh citrus season was significantly impacted by unprecedented hurricane damage. Florida fresh citrus shipments totaled 30.3 million 4/5-bushel cartons in 2004-05, down 41.9% from the 52.1 million cartons shipped in 2003-04. All varieties were impacted with grapefruit suffering the heaviest loss of 55.8%.

Offshore markets accounted for 58% of grapefruit shipments, and showed a 60% decrease over last season. Offshore shipments of colored grapefruit decreased by 61% while white grapefruit fell by 59%. Domestic grapefruit shipments declined 46% while grapefruit shipments to Canada decreased 57%.

Fresh round-orange shipments represented 32.4% of the fresh volume, and Temple shipments represented an additional 1.0%. Orange shipments totaled 9.8 million 4/5-bushel cartons in 2004-05, which represents a 20.3% decrease from the previous season. Tangelo shipments decreased 2.8% over last season. Honey tangerine shipments were down 30.2% from last season while other tangerine shipments (including Robinson, Sunburst, Fallglo, etc.) decreased 22.1%.
