16	Offshore Shipments of Florida Fresh Oranges and Temples, 1994-95 Through 2003-04 Seasons

Florida Fresh Citrus Shipments 2003-04 Annual Report

Purpose

This report provides a summary of fresh citrus shipment data for the 2003-04 season. It contains information on shipments of oranges, grapefruit, Temples, tangelos and tangerines for the domestic and export markets. Beginning with the 2003-04 season, domestic data are reported by state rather than the marketing regions used in previous reports. Data for 2002-03 were converted to state destinations for comparison. Because the old marketing regions crossed state lines, 2002-03 state data may be skewed. The report is based on data collected by the Division of Fruit and Vegetable Inspection of the Florida Department of Agriculture and Consumer Services.

The information is tabulated in three ways:

- (1) annually with comparisons of shipments in previous seasons,
- (2) by time period during the shipping season, and
- (3) by major state markets for each variety.

Highlights

Florida fresh citrus shipments totaled 52.1 million 4/5-bushel cartons in 2003-04, up 5.5% from the 49.4 million cartons shipped in 2002-03. Orange and tangelo shipments were lower than last season, while all other varieties showed an increase. Overall, grapefruit shipments were up 7% with both colored and white grapefruit accounting for the increase.

Fresh grapefruit shipments accounted for 58% of the fresh volume in 2003-04. Offshore markets accounted for 64% of those shipments, and showed a 17% increase over last season. Offshore shipments of colored grapefruit increased by 21% while white grapefruit grew by 7%. Colored grapefruit accounted for 61% of shipments to Japan, which had historically been a predominantly white grapefruit market. Domestic grapefruit shipments declined 9% while Canadian grapefruit shipments increased 10%.

Fresh round-orange shipments represented 23.6% of the fresh volume, and Temple shipments represented an additional 1.1%. Orange shipments totaled 12.3 million 4/5-bushel cartons in 2003-04, which represents a 1.9% decrease from the previous season. Tangelo shipments decreased 22.8% over last season. Honey tangerine shipments were up 17.4% over last season while other tangerine shipments (including Robinson, Sunburst, Fallglo, etc.) increased 10.3%.
